PROFESSIONAL EXPERIENCE

Sunshine Vacances France

Head of IT Services | Process Automation & Business Systems | Jul 2025 - Present | Sousse, Tunisia

- Sole contributor responsible for IT systems, technical project delivery and process automation at Sunshine Holiday Group headquarters.
- Designed and operate an end-to-end UiPath workflow for invoice control, booking reconciliation and hotel commercial-rule validation across 40 hotels and four travel agencies.
- Expanded the control scope from one month for one hotel and one agency in four working days to a full season across all supported hotels and agencies in approximately seven days.
- Structure commercial rules, surface uncertain cases for human review and deliver validated control and exception reports.

Maison Salina

Commercial & Digital Marketing Manager | Apr 2025 - Sep 2025 | Sousse, Tunisia

- Supported commercial planning, digital-marketing coordination, partnership outreach and initiatives to strengthen online visibility.
- Monitored qualitative campaign and commercial feedback to support communication adjustments and business-development activities.

Chic-Chac - Men's Barbershop, France

Freelance Digital Transformation & Data-Driven Marketing Consultant | Feb 2025 - Jul 2025 | Noisy-le-Grand, France

- Delivered a paid project comprising a customer-facing booking website built with HTML, CSS, JavaScript and Firebase, plus a separate Angular and Spring Boot administration dashboard.
- Generated more than 3,000 Google Search impressions over 90 days and approximately 30 online reservations during the first month.

PROFESSIONAL EXPERIENCE (CONTINUED)

VERMEG for Banking & Insurance Software

AI & Full-Stack Development Intern | Feb 2025 - May 2025 | Tunis, Tunisia

- Co-developed a demonstrable AI-ready e-learning prototype in a two-person team; focused on chatbot functionality and selected application services.
- Applied Angular, Spring Boot, Ollama and RAG concepts and contributed to integration, secure access, event-driven communication, containerization and observability concepts. Prototype only; not deployed to production.

EI Mouradi Hotels

Management Controller | Jul 2024 - Sep 2024 | Sousse, Tunisia

- Produced or contributed to four daily and three monthly reports or analyses covering operational departments.
- Supported budget preparation, KPI reporting, variance analysis, cost control and management decision support.

ArabSoft

Full-Stack Development Intern | Jun 2024 - Aug 2024 | Tunis, Tunisia

- Built a functional library-management application with Angular, Spring Boot, REST APIs and a relational database.
- Implemented CRUD operations, search, validation and borrowing tracking.

EI Mouradi Hotels

Management Control Intern | Jun 2023 - Sep 2023 | Sousse, Tunisia

- Analysed expenses, operational indicators and budget variances and supported financial reporting, KPI monitoring and cost-control activities.

SELECTED PROJECTS

TuniCulture - Tunisia Excursion Booking Platform

Developed a functional customer booking journey and an administration interface with secure access, KPI visibility, reservation statuses, search, filters and Firebase data management.

University Services Chatbot - IHEC Hackathon

Co-developed a chatbot for student and staff information, with attention to data protection, application security and preparation for local deployment.
